Parent Information Session
— Spelling @ Cranbrook

A major factor in student success at school is the partnership that is formed between both the school and the parents/carers. As a school we are continually looking to expand the opportunities to work with parents/carers to help improve student outcomes.

At the end of Term 1 & Term 2, spelling data was collected on every child to assist teachers with their planning and support for your child in the classroom.

We would like to personally invite you all to our parent information session on Spelling on Wednesday 19th February from 5.30pm-6.30pm in the Resource Centre. This information session will provide you with some insight into how spelling is taught at Cranbrook State School along with activities you can do with your child and home and resources you can access to support your child with spelling.

The parent information session will include the following:
- Student Learning Goals
- Breaking down words into their parts
- Words Their Way Spelling Program
- Spelling at Home — strategies, how to, supporting their learning goal, text appropriateness reading over the holidays
- Volunteering at school — upper and lower year levels
- Resources to support parents and guardians

We hope to see you at this information session.
